2018 Pie Run Participants:

Removing tags from the finishers at the end of the chute caused an unforeseen time delay. This resulted in the chute being filled to capacity and we, out of necessity, extended the point at which the tags were removed. Unfortunately this allowed an escape path for finishers and not all tags were collected. In short, we do not have the means to tally the results accurately. The results posted are based on data recorded at the finish line and on the order of the tags collected. Unfortunately there were many pieces of missing data resulting in many errors within these results.

If your name is listed and the time or place is incorrect, or if your name is not listed and you know your finish time, please let us know. The more feedback we receive the more accurate we can make this result list.

We sincerely apologize and are committed to ensure this will not be repeated in our races going forward.

Next year, the race will be scored using chip timing!
